processed# GEMS GROUP

Company Profile, Services and Employee Policy

Owner: David Gems

1. About Gems Group

Gems Group is a multi-service company that brings together software development, artificial intelligence and automation, travel services, and digital marketing under one roof. Alongside its commercial work, the group runs a social support program for children, supports independent film production, and sponsors motorsport through Gems Racing. The group's approach is to combine practical business services with a commitment to supporting people and communities.

Our mission is to deliver reliable, modern services to our clients while using the strength of the group to create opportunities for children, storytellers, and athletes who would otherwise have limited access to support.

2. Our Locations

Gems Group operates across three countries, allowing us to serve clients and partners in each market while drawing on a diverse team and a wide network:

- United States
- India
- Vietnam

3. Our Services

3.1 Software Services

Our software team designs, builds, and maintains digital products for businesses of every size. We work with companies to understand their goals and then deliver web applications, mobile solutions, custom business systems, and integrations with the tools they already use. Our process focuses on clear requirements, transparent timelines, quality testing, and long-term support after launch.

3.2 AI and Automation

Gems Group helps organizations put artificial intelligence to practical use. We identify repetitive, time-consuming work and design automated workflows that save time and reduce errors. Our AI solutions include intelligent chat assistants, document processing, data analysis tools, and process automation that connects existing software. We focus on responsible deployment, so every solution is tested, explained to the people who use it, and built to fit real business needs.

3.3 Travel Services

Our travel division helps individuals, families, and corporate teams plan and book journeys across the United States, India, Vietnam, and beyond. Services include itinerary design, flight and accommodation booking, tour arrangements, group travel coordination, and corporate travel management. Because we operate in three countries, we can offer local knowledge and dependable on-the-ground support for travelers.

3.4 Digital Marketing

Gems Group's digital marketing team helps businesses grow their visibility and reach the right customers. We offer search engine optimization, social media management, paid advertising campaigns, content creation, email marketing, and website analytics. Each campaign starts with clear goals and is measured regularly so that clients can see what is working and where to invest next.

3.5 Mai International Children's Foundation

Through the Mai International Children's Foundation, Gems Group supports children who do not have financial support for their education. The group takes on the full cost of studies for the children it sponsors, covering the fees and essential learning expenses so that financial hardship does not stand in the way of a good education. Our goal is to give these children a stable path to school, to a future career, and to a better life.

The foundation welcomes referrals from schools, community leaders, and families who know a child in need. Every child selected is supported from the start of their education to its completion, with progress followed closely by our team.

3.6 Film Production

Gems Group believes that good stories deserve to be told on screen. If you have a story for a film, our production support team will review it and, where it is a strong fit, help take the project forward. Our support can include development of the script, financing, casting, crew coordination, filming, and post-production. We are interested in stories that inspire, educate, or give a voice to people whose experiences are rarely shown.

3.7 Gems Racing Support

Gems Racing supports motorsport athletes and teams by providing the resources they need to compete at their best. Our support can include sponsorship, team management assistance, sponsor and media coordination, event logistics, and promotional services. We believe that racing builds discipline, teamwork, and determination, and we are proud to help drivers and teams pursue their goals on the track.

4. Working Hours

Days	Working Hours
Monday to Saturday	9:00 AM to 5:00 PM
Sunday	Closed (weekly off)

Days	Working Hours
Public Holidays	Closed

Employees are expected to be available during the standard working hours above. Any change to these hours for a specific team or project will be communicated in writing by management.

5. Leave Policy

Each employee receives a total of 22 days of leave per year. The annual leave allocation is divided into the categories below.

No.	Leave Category	Annual Days
1	Casual Leave (CL)	6
2	Sick Leave (SL)	6
3	Earned Leave (EL)	4
4	Annual Leave	2
5	Privilege Leave (PL)	2
6	Maternity / Paternity Leave	As per company policy
7	Unpaid Leave (LWP)	As required
8	Other Leave Categories	2
	Total allocated	22 days

Leave requests should be submitted to your manager in advance whenever possible. Sick leave should be reported on the day of absence. Unused earned leave may be carried forward as set by management. Unpaid leave is granted only when the allocated leave balance has been used or when required by circumstances approved by management.

6. Related Policies and Guidelines

6.1 Code of Conduct

All employees are expected to act with honesty, respect, and professionalism toward colleagues, clients, partners, and the children and communities we serve. Harassment, discrimination, and misuse of company resources are not tolerated.

6.2 Confidentiality and Data Protection

Client information, project details, financial records, and personal data of employees and beneficiaries must be kept confidential and used only for authorized purposes. Employees must follow data protection rules applicable in the United States, India, and Vietnam.

6.3 Use of Company Resources

Company equipment, software licenses, and accounts should be used for business purposes. Employees are responsible for keeping their login credentials secure and for reporting any suspected security incident promptly.

6.4 Grievance and Feedback

Employees who have a concern about their workplace or a policy may raise it with their manager or with the management team. Concerns will be treated seriously, handled fairly, and kept as confidential as possible.

7. Contact and Support

For questions about our services, the Mai International Children's Foundation, film submissions, Gems Racing, or internal policies, please contact the Gems Group support team:
